

Condition or Treatment	Male Lower Urinary Tract Symptoms (LUTs)
Background	Phase I of the CCG's RSS project indicated that patients with lower urinary tract symptoms were often referred to secondary care without management options in primary care being exhausted.
Referral guidance	Referral guidance only
Commissioning statement	The "flow" chart in Appendix 1 outlines options for management of LUTs in primary care.
Effective from	2/11/15
Summary of evidence / rationale	
Date	October 2015
Review Date	October 2016
